Recent Projects

teammatezTracker - https://github.com/JoeyGitsIt/teammatezTracker   September 2021
- Web app that uses 3rd party APIs to display stats for recent teammates in the game Fortnite.
- Technologies used: Javascript, HTML, CSS, Bootstrap, Jquery, and Chart.js

passwordGenerator - https://joeygitsit.github.io/passwordGenerator/   September 2021
- Web app that uses logic written in Javascript to generate a password based on user-specified parameters.
- Technologies used: Javascript, HTML, and CSS

workDayTracker - https://joeygitsit.github.io/workDayTracker/   September 2021
- Web app that utilizes local storage to create, save, and color code notes based on a typical 8 hour workday.
- Technologies used: Javascript, HTML, CSS, Bootstrap, and Jquery

Work Experience

Kendall Vegetation Services – Lawrenceville, GA   August 2020 – September 2021
Fleet Coordinator
- Analyze fuel-spending and logistics data from multiple internal sources to build spreadsheets and pivot tables.
- Build fleet-related reports using VLOOKUPs to pull information from various internal documents.
- Interpret analytical results and follow up with the involved parties to resolve issues and implement solutions.
- In charge of identity access management for the WEX, Samsara, Verizon Reveal, Comdata, and Collective Data systems that are critical to business functionality requirements.
- Developed a report that identifies vehicles with no movement and takes into account hours billed to resolve the inoperable GPS problem.
- Coordinate preventative maintenance scheduling for over 600 assets with a third party service to ensure longevity of equipment to satisfy customer needs.
- Took on responsibilities temporarily to ensure business continuity during gaps in staffing transitions, including maintaining the company's internal expense system.
- Active role in training new company managers on their fleet and accounting related responsibilities.

Kendall Vegetation Services – Lawrenceville, GA   December 2019 – August 2020
Payroll Specialist
- Performed payroll for 200+ employees to provide accurate compensation for their time.
- Maintain documentation for employees that proves they are qualified and have the required experience to perform the jobs they will work on safely and efficiently.
- Data entry of billing, financial, and location information for over 100 company assets.
- Designed a spreadsheet that utilizes pivot tables in order to ensure valid entry of working hours.

Education

Georgia Gwinnett College   Lawrenceville, GA
Bachelor of Business Administration (Economics)
